Video Format Order Form

You may receive a copy of the videotaped deposition in any of the following formats:

Please check the box next to your choice(s)

Standard VHS format - This can be viewed on a VCR.

DVD - video format - Standard DVD format (VOB). Viewable on most DVD players or computer with DVD drive and current version of *Windows Media Player* or similar software.

MPEG-1 format on DVD - Viewable on computer equipped with a DVD drive and *Windows Media Player* or similar software. MPEG1 is used with most trial presentation software.

MPEG2 format on DVD - This can be viewed on a computer equipped with a DVD player and *Windows Media Player* or similar software. This format can be used for editing or transcript/video synchronization but not as compatible as an MPEG1 format.

Video synchronization on DVD - This format allows you to view the synchronized transcript/video on a computer equipped with a DVD drive, perform word searches, export clips as *Windows Media Player* files, and is compatible for use with many trial presentation software, including Summation, Trial Director, Sanction II, Live Note, Trial Pro, and Trial Max SMI.
